MAYOR'S INAUGURAL ADDRESS

MAYOR'S INAUGURAL ADDRESS

Gentlemen of the City Government:

We meet here today for the first time in our official capacity as the newly commissioned representatives of the people, entrusted with the power and duty of directing and managing the business affairs of the City of Manchester for the ensuing two years.

In accepting my trust, and before counseling with you on the policies of administration and government, I desire to avail myself of this, the first opportunity that has presented itself since my election to personally and publicly express to the citizens and voters of the city my deep appreciation and sincere thanks for the very complimentary vote and evidence of confidence with which I was chosen and elected to this high and honorable office of mayor. And I assure you, fellow members of the city government, I deem it an equal honor and privilege to be associated with you in the public service for the welfare of the city and the common good of its citizens and taxpayers.

The heavy hand of a cruel and devastating war has gradually stretched its iron grasp over the face of a once peaceful and happy world, until its force and danger has threatened our country and its honor, our homes and our very lives, and it is now my pleasure and proud duty, as the chief magistrate of the city, to perform the first official act of my administration, and pledge in the name and in behalf of the people of Manchester, our true and loyal Americanism and the support of all our resources and institutions to our honored President, our Country and the cause of freedom and justice.

By virtue of the will and mandate of the people the political complexion and control of the local government has been changed for the first time in upward of over forty years. It is, therefore, fitting and proper for us, both the Democratic majority and our Republican friends, to pause here at the threshold of our labors and take the citizens and taxpayers into our confidence and consideration, so that we may truthfully understand the causes leading up to the great political upheaval of last November and know and realize that the election to public office carries with it only a representative function and that the will and wish of the electors and not that of the elected should be ever present in our conduct and deliberations upon public business.

In coming to a consideration of my policies, as mayor, careful allowance must be made for prevailing circumstances and conditions, in that, in entering public life and this office for the first time, a new field of activities present themselves to me, and as a business man I

know that in assuming these new and unfamiliar duties it would be unwise and presumptuous on my part to pass premature judgment or offer unstudied recommendations at this time on the problems of municipal administration. And equally deserving of caution and thought is the fact that we are in the midst of serious and uncertain war, with its future and burdens before us; and, therefore, what I have to say will be brief, and such, as in my first and best judgment, has for its object a tendency to relieve the weight of taxation and promote the public betterment.

In order that my position before the public may be simply and commonly understood I will say that I want to be known as the mayor of the whole city, the executive representative of all the people and the friend of business and property interests, and devoted to the service of all in an unselfish and equal measure, free from favor.

As a Democrat I heartily endorse the principles of that party, and the general wish and right of a majority of the voters and taxpayers of the city, and recommend the direct and local election, control and representation of all municipal commissions, boards and bodies occupying public property and supported and maintained at the expense of the city and out of the taxpayers' money.

The city, as we all know and understand, is a growing enterprise, and dependent upon our assistance and efforts for its growth and standard of condition and efficiency, to the end that there is already before us the serious and pressing problem of providing additional schools, bridges, highways and other public improvements; and while I am mindful of these current needs and obligations I feel that the situation is one in which the elements of funds, cost of materials and government need must enter and guide our deliberations and actions.

The city's financial condition, high tax, and approaching loss of liquor license revenue prompts me to the recommendation of the establishment of a bureau of local assessment for permanent improvements to meet the impending deficiencies and to equalize the burdens of cost and distribution of improvements. This I understand will have to be approached through an amendment to the constitution, and I suggest it at this time so that it may be taken up as an issue in the approaching constitutional convention.

As to suggestions or recommendations relative to the different city departments, I will say concerning them collectively that we have every reason to believe there is opportunity for improvement and better economical management, and I recommend, in order that we, in the management, and the taxpayers who sustain the burden of government may know the true and actual conditions of the city's financial position and standing, that provisions be taken to obtain an inventory of the city's property and a certified public accountant engaged to prepare an accurate and official statement of the city's financial and business condition.

REPORT OF THE CITY AUDITOR

REPORT OF THE CITY AUDITOR

To the Board of Mayor and Aldermen:

GENTLEMEN:—The auditor herewith submits to your honorable body his report, giving balance sheet as of December 31, 1918, showing the expenses of each appropriation during the year; also a tabular statement of the receipts and expenditures for the year 1918.

Respectfully,

PAUL H. BOIRE,

City Auditor.

REPORT OF CITY SOLICITOR.

MANCHESTER, N. H., JANUARY 1, 1919.

To the Board of Mayor and Aldermen:

The City Solicitor hereby files the following as his report for the year 1918.

Cases pending in the Superior Court for Hillsborough County in which the City is a party:

Sess. 42—Elizabeth A. Burns *v.* City of Manchester.

Sess. 43—Catherine Burns and Francis C. Burns *v.* City of Manchester.

Sess. 46—Lucien F. Loiselle *v.* City of Manchester.

Sess. 47—Jeremiah Sullivan and Mary A. Sullivan *v.* City of Manchester.

Eq. 475—Peoples Gas Light Co. *v.* City of Manchester.
Petition for abatement of taxes.

Eq. 745—Harry G. Clough *v.* City of Manchester.
Petition for abatement of taxes.

Eq. 768—Peoples Gas Light Co. *v.* City of Manchester.
Petition for abatement of taxes.

Eq. 1094—Peoples Gas Light Co. *v.* City of Manchester.
Petition for abatement of taxes.

Eq. 1218—A. Julien Champagne *v.* City of Manchester.
Petition to file claim *v.* city.

Eq. 1282—Odile Champagne *v.* City of Manchester.
Petition to file claim *v.* city.

Civil 3111—J. B. McCrillis & Son *v.* City of Manchester.
Claim for damages.

Besides the foregoing, many minor cases that arose during the year were disposed of. Many oral and some written opinions were given by the Solicitor to the Board of Mayor and Aldermen and to the heads of Departments. The Solicitor attended practically every meeting of the Board of Mayor and Aldermen and was present at all road hearings.

The Solicitor begs to express his appreciation of the courteous treatment and help extended by the Mayor, the Aldermen, the Heads of Departments, and all associates in the service of the City.

Respectfully submitted,

(Signed) T. H. MADIGAN, JR.
City Solicitor.

REPORT OF CITY PHYSICIAN.

MANCHESTER, N. H., JULY 31, 1919.

To the Board of Mayor and Aldermen:

I hereby submit my report as City Physician for the year 1918, as follows:

- 374 day and night calls at home and police station.
- 4 confinement cases.
- 114 medical office consultations.
- 36 surgical office consultations.
- 1 fracture, arm.
- 1 fracture, forearm.
- 7 contusions and sprains.
- 1 dislocation, arm.
- 6 cases gynecology.
- 1,037 vaccinations.

Yours truly,

(Signed) GUSTAVE LAFONTAINE,
City Physician.

Superintendent.

REPORT OF PLAYGROUNDS
COMMISSIONERS.

REPORT OF PLAYGROUNDS COMMISSIONERS.

COMMISSIONERS:

MÔISE VERRETTE, *Mayor*

FRANK P. CARPENTER, *Chairman*

WILLIAM H. MCQUADE

WALTER M. PARKER

MRS. ELIZABETH A. TOWNE

FRANK C. LIVINGSTON, *Clerk.*

To the Honorable Mayor and the Citizens of Manchester:

Believing that the great good accomplished by the Playgrounds of the City in the education of its youth warrants a large publicity, your Commissioners have issued the following report of that branch of their work, though it is to be taken as a part of their entire report.

Every dollar, of the three thousand (3,000) dollars appropriated for the year 1918, was spent in the usual routine work and much more could have been used to advantage upon the eight (8) playgrounds of the City where, under the direction of Joseph S. Law and his assistants, the children enjoyed themselves during the summer months of July and August. The attendance for the entire season was 51,315, an increase of almost 7,000 over the previous year, but the figures show that there were about 10% more girls than boys. We were not able to provide them with much of anything new in the way of apparatus, save some teeter boards and a chute or slide for Concord Common. An amusing feature in connection with this slide was noticed several times by one of the Commissioners who observed a large pet dog of one of the children sliding down just in front of his mistress and seemingly enjoying it as much as she.

This opening of a playground on the lower half of Concord Common was a new venture, all others being more on the outskirts of the City; but the attendance, somewhat over 7,000 (the largest in any playground), indicated that there was need of it in this thickly settled part of our community.

Each playground (except Concord Common) was in charge of a man instructor with a lady assistant and at the opening of the season each was provided with a first aid kit, though there was little if any occasion to use them; but the five dollars' worth of sewing material also

furnished to each was all used up, the work accomplished being of a most excellent character. All of the costumes used in the pageant at the end of the season having been made by the children under the direction of their teacher.

Some idea of what is accomplished may be gathered from the fact that in one week there were played 110 games of baseball, 124 of basket ball, 142 of volley ball, 183 quoits, participated in by both boys and girls, save the first. In all, 17 varieties of games were used, including tennis, croquet, counting games, flag drills, marching and singing.

It is apparent that these playgrounds appeal to the parents or older brothers and sisters, for the smallest number of visitors in any one week was 231, the largest, 416. The neighboring town of Claremont sent its supervisor here to learn our methods in this modern manner of camouflaging education by calling it play. And your Commissioners hereby extend to all citizens a most earnest invitation to visit these recreation centers and see just how the younger element are kept from wandering in forbidden paths while at the same time they are building up both body and mind.

This year your supervisor, Mr. Law, with the hearty co-operation of the Commissioners, decided to take advantage of the war spirit then prevalent and have the children present an historical pageant, "The Spirit of the Allies," illustrative of the war and the various allied countries and neutral nations. Through the kindness of the Amoskeag Manufacturing Company, the spacious Varick Park was placed at their disposal and Monday evening, August 26th, some three thousand parents, brothers, sisters and interested citizens saw some two hundred or more pupils from these playgrounds give a practical demonstration of what they had been taught the past few seasons. Some of the folk dancing would have been a credit to professionals and the whole entertainment reflects credit on the supervisor, instructors and assistants. Notwithstanding the fact, that the children made their own costumes and that a large part of the materials therefor was given through the generosity of the Amoskeag Manufacturing Company, Barton Company and the James W. Hill Company, the expenses were nearly two hundred dollars, but the admissions, at the nominal sum of fifteen cents, were sufficient to cover the same and leave a small sum for the future.

The playgrounds closed formally August 30th with the Sixth Annual Exhibition and Field Day Sports at Textile Field, with a program of 14 events. The prizes being awarded by Acting Mayor William O. Corbin and ending with that old but always laughable scramble for two hundred and fifty pennies thrown to the winds for the girls to gather and a like amount for the boys.

It is to be regretted that the public does not attend in greater number this free exhibition of the work of the PLAYGROUNDS.

MAINTENANCE OF PLAYGROUNDS

Payroll, Playground Supervisor and Assistants.....	\$1,721.24
Payroll for miscellaneous work on playgrounds.....	732.78
Printing	29.40
Plumbing	114.60
Repairing equipment	73.40
Playground supplies	424.86

Total expenses, 1918\$3,146.28

Supervisor of Playgrounds—JOSEPH S. LAW

Assistant Supervisor of Playgrounds—CHARLES W. PARTRIDGE

Instructors—Theodore Landregan, Peter Hampston, John County, Lloyd Fitts, John McAllaster, Carroll Gooch, Harold Hickman, Bernice Caswell, Anna Drennan, Dorothy Shand, Doris Bunton, Rosamond Sargent, Jennie Landers, Beth Garmon, Margaret Cronnin.

Location of Playgrounds:

Barry, South Manchester.

Prout, Prout's Park, East Manchester.

Derryfield, Derryfield Park.

Concord Common, Lower Half.

North End, Webster Street.

Wolf, Wolf Park, West Manchester.

Sweeney, Sweeney Park, West Manchester.

Notre Dame, Near Sullivan Street, West Manchester, (used through the courtesy of the Amoskeag Mfg. Co.)

RECOMMENDATIONS

If sufficient funds are available your Commissioners would recommend the opening of a playground near the Cemetery Brook, near Maple Street, and the installing of two wading pools, one for boys and one for girls. The installation of a wading pool on Concord Common, to replace the worn out fountain now there. The providing of some shelter for such playgrounds as are now without the same.

Should the City deem it wise to inaugurate in the school houses during the evenings of the winter months concerts, lectures or instruction of that nature, this Board would be glad to co-operate therein.

Your Commissioners would be glad to make more elaborate provisions for winter sports than they have been able to, simply by flooding the commons and keeping Dorr's Pond clear, if funds are available.

We have examined the account of Edwin F. Jones, Treasurer of the Trustees of the City Library, and find the same correctly cast and properly vouched.

MOISE VERRETTE,

WALTER M. PARKER,

*Committee on Finance of the
Trustees of the City Library.*

I have examined the account of Edwin F. Jones, Treasurer of the Trustees of the City Library, and find the same correctly cast and properly vouched .

PAUL H. BOIRE,

Auditor.

*The following bills were paid from the 1918 income though payment was not made until 1919 on account of the death of the Treasurer.

REPORT OF SUPERINTENDENT
OF PUBLIC BUILDINGS

REPORT OF SUPERINTENDENT OF PUBLIC BUILDINGS

MANCHESTER, N. H. December 31, 1918.

*To His Honor the Mayor and the Board of Aldermen of the City of
Manchester, N. H.:*

GENTLEMEN—I herewith submit my annual report of the Building Department showing the operations and expenditures for the year ending December 31, 1918.

In submitting this report to your honorable body let me first call to your attention a few of the many notable improvements made in the schools and the other public buildings of the city during the past year, that you may more readily discern the results of our efforts along these lines. The Department as a whole has by earnest efforts done everything in its power, with the funds at its disposal to improve the condition of the city buildings as much as possible. Their present average condition after four years of constant endeavor, I take pride in stating is noticeably improved, especially the basement of the school buildings, and I think that yourselves or any citizen, actuated by sincere motives, and if he has been conversant with past conditions, will find that in the main there is a marked improvement. In several of the school buildings very noticeable improvements were made by the installation of new electric lights, and steel ceilings and the extension of the steam radiation, the laying of new floor, and many other much needed repairs.

In several of the Fire Engine Houses, new rooms were finished off to provide quarters for additional men and many other much needed repairs and alterations have been done, much to the benefit of the buildings and the men who occupy them.

At the Amoskeag school, new steel ceilings were put on and all of the desks were refinished. At the Ash-Street school the basements were painted, new electric lights, fixtures and wiring were installed, and new steel ceilings put on in stairway and corridors and assembly hall.

At the new Bakersville school collapsible iron gates were put on at the openings to the air ducts in the basement, new electric lights were

also installed in the basement, cement steps were constructed at the entrance to the building and the yard graded and grassed over and new lot curbing was set around a portion of the yard and a cement pit was built below the floor of the basement to receive any surface water which might drain in and from which the water could be syphoned out.

The basement was painted and several of the rooms refinished at the Hallsville school. At the High school new partitions were built and shelving put up for a stock room and the entire basement was painted. At the Highland School the basements were painted and new outside windows were made. At the Lincoln Street School a new floor was laid in the assembly hall and new electric wiring, fixtures and lights were installed and the basements painted.

At the Maynard school the steam radiation was extended and new radiators installed and the basements painted.

New hoods were built over the doors to the basements on the east side of the North Main Street school and the basements were painted.

Extensive repairs were made at the Parker school, several of the rooms were plastered, the basements painted, the urinals were reset, fire escapes installed and the steam radiation extended.

At the Pearl Street and Straw schools the basements were painted. At the Varney school a cooking room was finished off for the domestic science department and new steel ceilings put on and the basement painted, new electric wiring, lights and fixtures were installed throughout the entire building. At the Wilson school the desks were refinished, new sliding doors were installed and the basement painted.

At the Central Fire Station the large entrance doors at the Chemical and also the squad were rebuilt, a new floor was laid at Engine 4, and at Truck 1, Engine 1 at the squad room the interior was painted.

At the Fire King Engine No. 2 new rooms were finished off and painted and the steam radiation extended.

At the Fulton Engine House the interior was refinished. At Hose 3, South Manchester, a new floor was laid in the apparatus room and the steam piping renewed.

At Engine 3, Lake Avenue, the yard was concreted and a new floor laid in the barn. At Hose 2, Maple street, the apparatus room was painted, a new boiler installed and the steam radiation extended. At Engine 7, Somerville street, the horse stalls were removed and a new floor laid in the attic.

At the City Hall the offices of the Mayor, City Clerk, Assessors, Board of Registrars, City Messenger and the Commissioner of Charities were painted and refinished, also the stairways and corridors; and new radiator shields were put on in several of the offices. Filing cases were built in the office of the Assessors and the office of the Superintendent

of Buildings, and the location of the cable and weight of the fire alarm striker, was changed and placed in the basement. A considerable amount of work was done on the building at the City Farm, a greater part of the buildings were reshingled and many other much needed repairs were made.

A new conduit pipe for the telephone was laid at the New City Hospital. At the Old Court House a clinic room was finished off. New shutters were made for the Oak Hill Hospital.

The foregoing activities of the Building Department which I have referred to but briefly are only a small though important part of this year's accomplishments, the cost of the same which includes all classes of work will be found on the following pages of this report in tables showing the cost of the different classes of work and the work done for the school department. Also a record of the building permits, the nature of the structure for which they were granted and the estimated cost of the building operations.

A. L. PARTRIDGE,

Treasurer.

REPORT OF THE TRUSTEES OF
CEMETERIES AND CEMETERY
FUNDS.

REPORT OF THE TRUSTEES OF CEMETERIES.

To the Trustees of Cemeteries and the Board of Mayor and Aldermen:

GENTLEMEN—In behalf of the Board of Sub-Trustees of the Pine Grove Cemetery I present the following as their report for the year 1918:

The year 1918 was an average year in the amount and nature of the work done in the maintenance of the Pine Grove cemetery. No new undertaking of great size was begun, but the ordinary amount of care and labor was required of the superintendent and his assistants to keep the appearance of the grounds up to the standard of preceeding years and to meet the every day demands of a constantly enlarging cemetery. The average number of men employed during the year was twenty and during the summer months more could have been advantageously used had they been available. The amount of work done by the government and the large wage paid absorbed the usual available supply of men.

IMPROVEMENTS AND REPAIRS.

Under this head would come the relaying of sink drains at tenements numbered 938 Brown avenue, the building of a stone cesspool at the Ray cottage, number 656 Mitchell street, repairing the steps at the Loop cottage and retopping five chimneys on three of the tenements. The buildings at 765 Brown avenue including the greenhouses were painted. The woodwork on the outside of the chapel was painted as was one pair of gates. Some repairs were made on the iron fence, 36 feet having been reset to repair the damage occasioned by a runaway horse on the Calef road side.

The two-horse dumpcart was rebuilt, seven wheelbarrows used by the clippers were repaired and painted, the Ford truck and the earth cabinets used in digging graves were given fresh coats of paint.

The Burnham Memorial entrance on Calef road was completed during the year, adding much to the appearance of the cemetery at this point.

We have moulded from cement 108 lineal feet of cold frame plank, 30 covers for graves and 550 corner bounds.

Two new work horses were purchased.

GRADING AND MACADAMIZING.

Several changes were made in the section containing the Quint lot. The monument and the bodies buried there were removed to a different location on the lot and the section graded, seeded down and staked out into lots. The change will give eleven additional lots which will be sold under perpetual care. The remainder of Evergreen lawn was seeded down and staked out into lots as was also the remainder of Lakeview lawn. By the completion of these two lawns we have added 150 lots to those now ready for sale.

Considerable work was done on a section east of Evergreen lawn, including grading and preparing the plot for lots to be sold in the future. The avenue around Evergreen lawn was prepared for macadamizing and about ninety tons of broken stone spread for a foundation. On account of railroad conditions we were unable to procure any crushed stone for road building. The avenue around the single grave section was also made ready for macadamizing.

At the Burnham gateway we built 96 square yards of cement walks and 181 square yards of cement roadway. The improvements at this point necessitated rebuilding 175 square yards of macadam roadway and we topdressed 75 square yards of tar concrete roadway on Chessom avenue.

The avenues received the usual amount of care which included removing weeds, sprinkling and rolling when possible. Two casks of weed killer were used.

PIPING FOR WATER AND DRAINAGE.

The repairs at the Burnham entrance necessitated replacing 114 feet of the old water main. We also laid 500 feet of 2" galvanized pipe at the south end of the cemetery to provide water for the single grave section. In Walnut avenue 337 feet of 8-inch soil pipe was laid and three cesspools to take care of surface water connected therewith. The cesspools at the north entrance were connected, using 76 feet of 6-inch pipe. This will take care of the water which comes in from the Calef road at this point.

GENERAL STATISTICS.

During the year 1918 the number of interments was 566, an increase of 101 over the previous year, making a total of 12,456 to December 31. Of the interments 76 were in single graves and 172 in the Field of Manesquo. Removals were made from 13 graves to others in the cemetery and 2 to other cemeteries, while 3 bodies were brought from other cemeteries to the Pine Grove.

Foundations were laid for 70 monuments and 140 head stones. Sixty cement vaults were set.

The whole number of lots sold up to January 1, 1918, was 3673. During the year there were sold 4 lots on Spruce lawn, 21 on Birch lawn, 75 on Evergreen lawn, 4 on Lakeview lawn and 1 on Hillside lawn, a total of 105, making 3778 lots sold up to December 31, 1918. Single graves were sold to the number of 79 in the single grave section and 13 in Swedish lawn, making a total sold to December 31 of 340 in the single grave section and 249 in Swedish lawn. There were unsold but ready for sale on December 31, 55 graves in the former section and 341 on the latter lawn.

There remains lots laid out and ready for sale the following: Twenty-one on Chapel lawn, 4 on Acacia lawn, 4 on Lakeside lawn, 10 on Birch lawn, 46 on Lakeview lawn, 87 on Evergreen lawn and 8 on Swedish lawn, (of which the care is at the owner's expense), a total of 180 lots.

During the year, 411 of the ordinary lots were cared for, the owners paying for the labor and water. The number of lots under perpetual care is 1405 and under perpetual semi-care 752.

FINANCIAL.

The receipts for 1918 which went into the city treasury were as follows:

For water and care of lots, \$1,361.50; for interments, \$2,790.00; for removals, \$78.00; for extra labor, (grading lots, foundations, etc.), \$2,137.23; for water at houses, \$13.00; for use of chapel, 7 times, \$21.00; from sale of flowers, \$639.29; for rent of tenement houses, \$1,030.00; for sundries, (hay, wood, etc.), \$355.18, making a total of \$8,425.20. To this should be added the amount received by the City Treasurer from the sale of lots, \$18,896.09 making the total receipts for the year \$27,321.29. Appropriated for care of cemetery \$25,000.00.

PERPETUAL CARE FUND.

For the information of the sub-trustees and as a matter of record I herewith include a statement of the perpetual care fund:

Total amount of perpetual care fund Jan. 1, 1918.....	\$213,136.30
Paid cemetery fund for perpetual care during 1918.....	12,059.63
Paid cemetery fund for perpetual semi-care during 1918...	796.62
Paid cemetery fund for single grave care during 1918....	640.00
Received for perpetual care of ordinary lots during 1918..	2,004.85
Total amount of perpetual care funds Jan. 1, 1918.....	213,136.30
Income on hand from perpetual care fund Jan. 1, 1918...	13,252.12
Expenses for 1918.....	6,413.85
Income on hand Jan. 1, 1919.....	15,712.87

PERPETUAL CARE.

The perpetual care lots have received the usual attention. This work increases each year due to the fact that no lots are now sold other than with the perpetual care clause attached. A number of lots were regraded, weeds removed and sunken graves refilled. Monuments and other stone work were cleaned where necessary. We used about thirty cords of stable dressing, fifteen tons of wood ashes and three tons of fertilizer. About 400 sunken graves were refilled.

TREES AND SHRUBS.

The trees and shrubs about the grounds were pruned and sprayed and 300 trees and shrubs were transplanted. We were unable to obtain any tulip bulbs so none were set out this year. The estimated value of plants used on the grounds was \$3,000.

About twenty cords of wood was cut, mostly from dead trees and in new sections, and prepared for use under the boilers. Clearing the trees from brown tail moths and painting gypsy moth nests involved a large amount of labor and about thirty gallons of creosote were used.

MERRILL CEMETERY.

The annual appropriation for use in this cemetery was \$100, which has been expended in cutting the grass, cleaning the avenues, painting the gates and attending to such general work as was necessary. The income from the cemetery amounted to \$79.

The foregoing covers in a general way the record for 1918 and the sub-trustees feel that the results were such as to justify the expenditure of the public money required to produce them.

Respectfully submitted,

HARRIE M. YOUNG,
Clerk.

To the Trustees of Cemeteries and Board of Mayor and Aldermen of Manchester, N. H.:

Owing to the new rules and regulations adopted by the firm of auditors employed by the City of Manchester, the past year, who have united the Valley and Piscataquog cemeteries, treating them as if they were one, this report has to cover both of these cemeteries instead of having a separate report for each as has been the practice heretofore. This union of the results accomplished thereunder makes comparison with previous years somewhat difficult, but will doubtless provide a proper basis for the future.

That the winter of 1917-18 was a most severe one receives confirmatory proof when one notices the increase over last year of the number of bodies placed in the tomb, the same being almost thirty per cent (30%) or eighty-four (84) for this last year as against sixty-five (65) for 1917. The number of interments in both cemeteries shows almost as much of an increase, going from forty-seven (47) to sixty-one (61), some twenty-five per cent (25%).

Your trustees are sometimes asked: "Are the citizens of any city such as Manchester really interested in cemeteries as old as these two?" Perhaps as adequate an answer as can be given to such a query would be to cite the slowly increasing number of lots in such cemeteries which have been placed either under annual or perpetual care. Applying this test we find that fifty-four (54) more families have placed their lots under annual care (the number now being three hundred and thirty (330), and twenty-three (23) more families have taken advantage of the perpetual plan of care of lots than in 1917, the number now being three hundred and sixty-six (366). It is evident that as the number of lots under perpetual care increases, there is a strong probability that the number of lots under annual care decreases, as the former come from the latter, and in these two old burying grounds where no new lots can be sold available for each kind of care. It is not surprising then to find that the money received from the care of lots was not as much into fifty-one dollars (\$51) as the previous twelve (12) months, being nineteen hundred and eighty-three dollars and seventy-five cents (\$1983.75) for the year just ending, while the total receipts from all sources were twenty-six hundred and seventy-one dollars and twenty-five cents (\$2671.25), exceeding by several hundred dollars one-third of the amount appropriated for the care of these cemeteries by the city, or stating it another way, the actual cost to the city is not quite four thousand dollars (\$4000) per year, one-half of which is probably expended for labor.

This year, the cost of labor has increased almost seventy per cent (70%) more than formerly, the wages of the employees having been increased like all other city employees to that extent, because of which some of the new work planned for 1918 had to be omitted.

Superintendent Smith was, however, able to turf over some two hundred (200) yards of embankment on the Willow street side of the Valley cemetery. The iron fence along that side of the cemetery (the admirable gift of the Currier estate) was completely erected and painted, the telephone poles through the courtesy of the N. E. Tel. & Tel. Company, were removed, and everything gotten into readiness for the granolithic walk to be built the coming summer and which, owing to war conditions and the scarcity of labor the Currier estate had to defer until 1919.

Superintendent Smith also had the charge of the Piscataquog cemetery the same as in 1917, where, under his careful supervision the usual routine work of keeping the paths and walks free from weeds, the grass cut, and the stones and monuments in good order and condition, was well accomplished.

Respectfully submitted in behalf of the sub-trustees,

FRANK C. LIVINGSTON.

Clerk.

To the Trustees of Cemeteries:

I herewith present to you the annual report of money received for the year ending December 31, 1918:

Respectfully submitted,

A. L. PARTRIDGE.

Treasurer of Trustees of Cemetery Fund.

This is to certify that I have examined the books of account of Alliston L. Partridge, Treasurer of the Cemetery Funds, embracing the receipts and expenditures for the year 1918, and I find the same correct and properly vouched. I have examined also the securities in which said fund is invested and find as follows:

PINE GROVE CEMETERY.

5 City of Manchester 4% Hospital bonds, Nos. 56 to 60 inc., due June 17, 1927, denomina- tion \$1,000 each	\$5,000.00
4 City of Manchester 4% Hospital bonds, Nos. 61, 62, 63, 65, due June 1, 1928, denomina- tion \$1,000 each	\$4,000.00
15 City of Manchester 4% Refunding Water bonds, Nos. 62 to 76 inc., due July 1, 1925, denomination \$1,000 each	\$15,000.00

20 City of Manchester 4% Refunding Water bonds, Nos. 81 to 100 inc., due July 1, 1926, denomination \$1,000 each	\$20,000.00	
4 City of Manchester 3½% Municipal bonds, Nos. 41 to 44 inc., due July 1, 1922, denomination \$1,000 each	\$4,000.00	
5 City of Manchester 4% Refunding Cemetery bonds, Nos. 11 to 15 inc., due July 1, 1919 to July 1, 1921, denomination \$1,000 each....	\$5,000.00	
19 City of Manchester 4% Water bonds, Nos. 81 to 99 inc., due Nov. 1, 1921, denomination \$1,000 each	\$19,000.00
